ROOT AND BRANCH

Craftsmanship runs deep at Coco Wolf. You can trace its influence and character in every curve, angle, line and stitch of our luxury outdoor furniture range.

Our reputation for quality is built on firm foundations. Launched in 2014, Coco Wolf is an inspired creative collaboration between a talented husband-and-wife team, James and Rebecca Lorimer. The native New Zealanders brought their passion for innovation – as well as Rebecca's 15 years of interiors and furniture design experience – to London, establishing a boutique outdoor furniture business that quickly evolved into a sought-after, design-led, ethical brand. Today, the company has its own manufacturing facility, with a talented team of over 60 staff.

“Furniture that is both desirable and durable”

From the beginning, Coco Wolf has never wavered in its pursuit of excellence. Despite growth, our core values remain unchanged: to design and produce furniture that is both desirable and durable, with a distinct character that thrives in any outdoor setting.

Crafting furniture is a passion at Coco Wolf, with a dedicated team of skilled artisans working in our Long Eaton, Derbyshire workshop. Using traditional techniques passed down through generations, our furniture makers take pride in producing pieces to the highest standards. We believe that the personal touch and energy that comes from this hands-on approach can't be replicated in mass production. The result is a collection of contemporary classics, with each new season showcasing fresh and inspiring styles.

Sustainability

At Coco Wolf, our furniture creates a bold statement in outdoor spaces while embodying our commitment to minimal environmental impact in production.

Sustainability is a top priority, from sourcing timber from managed forests to reusing and recycling raw materials whenever possible.

Our factory operates on renewable energy sources, and our innovative manufacturing processes minimize waste, resulting in pieces that are both stylish and environmentally conscious.

Service and commitment

Each piece of furniture is made to order in the UK using only the finest material. Our designs can be tailored to meet the specific needs and preferences of each project.

We take pride in collaborating with some of the world's leading architects, interior designers, consultants, and individuals on a wide range of residential, commercial, and nautical projects of varying sizes.

Our designs are influenced by both traditional and contemporary styles, with a focus on carefully selecting materials, finishes, and design elements for each piece. Our furniture seamlessly integrates with a variety of architectural styles, elevating outdoor spaces into elegant and luxurious living areas.

Made in Britain

Our pieces are designed with indoor comfort in mind, featuring hand-sprung, fully upholstered seating yet engineered to withstand heavy use and harsh weather conditions.

Crafted in our Derbyshire workshop, every item is made to the highest standards using a blend of traditional and innovative techniques and adheres to strict fire regulations. Our collections feature timeless and modern designs and can be customized to match indoor specifications, creating a seamless transition from indoor living spaces to the outdoors.

Whatever the weather

Designed to withstand year-round outdoor use, our pieces are made with durable, water-resistant materials, ensuring low maintenance and long-lasting performance.

Frames are crafted from Iroko, a hardwood known for its toughness, which naturally resists decay and adjusts to temperature and humidity changes, reducing the risk of cracking and splintering. The exposed wood is protected with a scratch-resistant, weather-resistant varnish.

Our designs feature elements that prevent water buildup and promote quick drying, including hidden drains and a marine-grade mesh base for efficient drainage and air circulation. Cushions and seats are equipped with a ventilated back and covered with breathable, liquid-repellent acrylic fabrics. The cushion inners are designed for water to pass through quickly.

Only rust-free metal components, including galvanized springs and stainless steel staples and nails, are used to ensure longevity and durability.

Durability and comfort

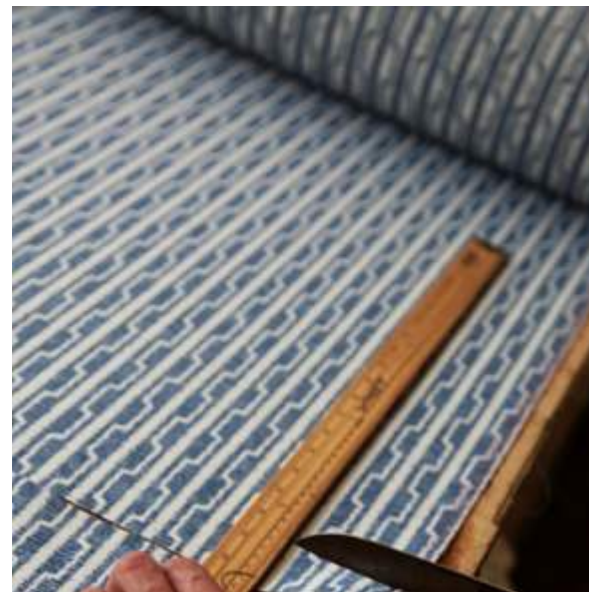

Our outdoor furniture cushions are crafted for exceptional durability and comfort. Featuring a highly breathable and water-permeable internal structure, our cushions dry ten times faster than conventional cushions made of polyurethane foam and polyester fibre. With a filling resistant to mould, bacteria, and chlorine, our cushions are ideal for use in marine or coastal environments. Thoroughly tested to endure 80,000 compressions, these cushions are engineered to provide the ultimate comfort experience.

Materials & Production

We are dedicated to delivering top-quality products. From sourcing only the finest materials to hand-crafting and meticulously hand-finishing each piece in our state-of-the-art workshop in England, we never compromise on excellence.

Our furniture collections embody the spirit of British craftsmanship and are designed with the utmost attention to detail and style.

Concept & Design

We specialize in custom design, taking your sketch or photo, or even just a vision.

Our experienced creative team can transform indoor and outdoor gardens, spas, yachts and terraces, creating extraordinary spaces. and exceeding customer's expectations.

Using innovative software to produce a 3D computer-generated image, allowing you to envisage the piece in its final grandeur.

Bespoke

We craft custom furniture with unique touches that reflect your style. Our wide range of options, including custom sizes, wood finishes, fabrics, and woven ropes, allow us to create a piece that perfectly fits your needs. We are dedicated to providing tailored, detail-oriented designs to make your vision a reality.

Indoor Specification

Coco Wolf furniture can be ordered to an indoor specification for seamless coordination across interior and exterior spaces. Only the highest-quality materials and performance fabrics are used for commercial, hospitality and residential projects.

Indoor frames are constructed from kiln-dried hardwood. The spring construction creates the foundation for comfortable, durable seating, while a series of elastic straps and springs ensures comfort. Seat and back cushions feature different density polyurethane foam with thermo-sensitive properties and a core insert in a high resilience polyurethane material.

WOOD FINISHES

Coco Wolf furniture pieces are constructed using the very best modern materials to ensure they deliver maximum durability, whatever the weather. Our preferred choice of wood for frames and legs is Iroko, a hard-wood renowned for its strength and extreme durability. It flexes with humidity and temperature, minimising the potential for cracking or splintering. It is naturally resistant to decay and is commonly used in demanding marine environments.

Please note, for the ‘Natural’ finish, as Iroko wood is a natural material, the grain and shades of colour vary, this is not a defect but rather a natural beauty of working with solid wood.

We offer a range of accessories from outdoor scatter cushions and electric heaters to tailor made rain coats and storage covers to complete your outdoor setting and care for your furniture.
